About Us

Cool-A-Zone was formed on October 15, 2008 with the goal of bringing next generation portable evaporative cooling fans to the marketplace. Cool-A-Zone fans have been engineered on century old proven technology for air cooling, with redesign and technical advances to the housing, controls, fan blade, motor and water pump.

Since our founding, we have finalized our exclusive distribution agreement, branded our company and have gained certification as a Women Owned Business, a HUB Business in the State of Texas and are certified to perform work for government agencies.

C-400

Facts for ALL Fans

- Lowers ambient temperature an average of 10° to 25° F
- Approximately 1/3 smaller in size than most competitors
- Technically advanced digital control panel allows for auto on/off, run-time settings, output temperature control, operating time, fan speed, and low water warning
- Pump will shut off automatically when water level is low to prevent pump burn-out
